

Pesticide Label

Technical Guide

• Why is the Pesticide Label important?

ENGLISH

Pesticide label provides important information on:

Product details

Directions on how to use, store and dispose

Potential hazards

• Important information in the Pesticide Label

CONCENTRATION OF THE ACTIVE INGREDIENT (e.g. 75%) and FORMULATION (e.g. wettable powder or WP)

COLOR CODING (Green, Blue, Yellow and Red) and PICTOGRAMS
See **Safe Use of Pesticide** for more information.

DIRECTIONS FOR USE

- Crop(s), pests, dosage, mixing and dilution of the product, time of application, incompatibilities, application method etc.

Note: Always follow the direction!

RE-ENTRY PERIOD

- Time you are allowed to enter after spraying
- e.g. 12 hours after spraying

PRE-HARVEST INTERVAL

- Time to wait between pesticide application and when a crop can be harvested
- e.g. 14 days for all crops

FIRST AID & MEDICAL ADVICE

- What should you do when it accidentally gets into your mouth, skin or eyes?

STORAGE AND DISPOSAL

- How and where to store?
- How to handle leftovers and empty container?
