

SAFE USE OF PESTICIDE

Technical Guide

- Seven RIGHT Practices in Pesticide Use

SAFETY

ENGLISH

1. RIGHT Pest Problem Identification
2. RIGHT Pesticide
3. RIGHT Mixing of Pesticide Solution
4. RIGHT Timing
5. RIGHT Sprayer and Personal Protective Equipment (PPE)
6. RIGHT Hygiene
7. RIGHT Storage and Disposal

1. RIGHT Pest Problem Identification

Insect pests

Diseases

2. RIGHT Pesticide

ALWAYS read the LABEL when:

- Buying
- Mixing
- Applying
- Storing
- Disposing

General advice:

1. Always read the label.
2. Alternate Mode of Action (MoA) groups to prevent resistance.
3. Check WHO color label. Avoid RED label (Category 1).
4. If unsure, ask advice from the experts.

Category I

Category II

Category III

Category IV

3. RIGHT Mixing of Pesticide Solution

ALWAYS follow the dosage in the label. Avoid mixing two or more pesticide products.

Pesticide label pictograms of preparation:

4. RIGHT Timing

Good weather

If windy, spray downward

5. RIGHT Sprayer and Personal Protective Equipment (PPE)

No leakage

Good nozzle

Regular calibration

Use separate sprayer for herbicide

Pesticide label pictograms of PPE:

6. RIGHT Hygiene

Wash after spraying

Do not smoke, drink or eat during or in between spraying

Wash working clothes separately

7. RIGHT Storage and Disposal

Keep locked away

Do not reuse. Puncture the containers before disposing

Collect in a separate waste can or sack bag with proper label
